Commissioner of Public Works,  
City Hall,  
Boston Mass.

Dear Sir;-

In connection with our contract for roof repairs on City buildings Albany St., Boston we find that about 90' of cleat on gravel roof of main stable has rotted out and as a result the roof is leaking badly.

We will put on about 90' of new #9 zinc cleat and make gravel roof repairs in connection with same for the sum of \$80.00 Eighty Dollars.

Respectfully submitted.
